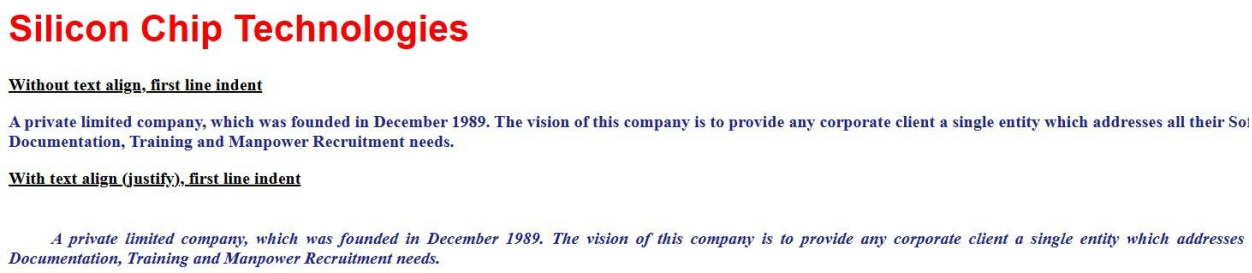
----------Task 3.1----------

Practical 1: Understand and go through all the 8 examples provided in this lab. Try each one in your favorite IDE. Check the output in browser. In your lab report, write comment about each example you have covered in your own words with that example output. (6 Marks)

Output:exmple1

In this example I learn about casecading stylesheet and how to apply on html file and modifying the text style with the following properties

- Font family
- Font size • Font style Output:



In this example I learn about the text styling like italic ,bold normal using css.

Practical 2: Write the HTML code with CSS that generates the web page shown in Figure 3.8 with following specification: a) Heading 1 has font value of Arial and Helvetica, size 26 pts, and red color. b) Each paragraph is 12 pts, bold, and italic.

Take paragraph color value: #23238e c) Use groove border style and thick border width. For reference, go to Table 4.4 for further details about the border attributes. Provide the HTML and CSS codes in your lab report. (4 Marks)

```html
<!DOCTYPE html>
<head>
    <title></title>
    <style>
        h1{
            font-family: Arial, Helvetica, sans-serif;
            font-style: normal;
            font-size: 26pt;
            color: #c31313;
            text-align: center;
        }
        div{

            border:2px solid #d22f63;
            border-width: 4pt;
            margin-left: 15%;
            margin-right: 15%;
        }
        p{
            font-style: italic;
        }
    </style>
</head>
<body>
    <h1>Silicon Chip Technologies</h1>
    <div>
        <p> A private limited company, which was founded in December 1989.
        The vision of this company is to provide any corporate client
        a single entity which addresses all their Software Development,
        Technical and User Documentation, Training and Manpower
        Recruitment needs.</p>
    </div>
</body>
</html>
```

----------Task 3.2----------

Write the HTML code with CSS that generates the web page shown in Figure 3.9 with following specification: 1) Heading 1 has font value of Garamond, size 26 pts, and red color. 2) Set top margin to 5%. 3) Create unordered list with values: HTML, JavaScript, CGI, Java, Oracle Developer 2000, and Oracle DBA. Use square list style type.

Silicon Chip Technologies

- HTML
- JavaScript
- CGI
- Java
- Oracle Developer 2000
- Oracle DBA

Code:

```
<!DOCTYPE html>
<head>
  <link rel="stylesheet" href="task3.3csscode.css">
</head>
<body>
<h1>Silicon Chip Technologies</h1>
<ul>
    <li> HTML</li>
    <li>JavaScript</li>
    <li>CGI</li>
    <li>Java</li>
    <li>Oracle Developer 2000</li>
    <li>Oracle DBA</li>
</ul>

</body>
</html>
```

```
h1{
    font-size: 26pt;
    color: red;
    margin-top: 5%;
}
ul{
    list-style-type:square ;
}
```

----------Task 3.3----------

Write the HTML code along with CSS file that generates the output web page shown in Figure 3.9.

Code:

```
<!DOCTYPE html>
<head>
    <title></title>
    <style>
        h1{
            font-family: Arial, Helvetica, sans-serif;
            font-style: normal;
            font-size: 26pt;
            color: #c31313;
            text-align: center;
        }
        div{

            border:2px solid #d22f63;
            border-width: 4pt;
            margin-left: 15%;
            margin-right: 15%;
        }
        p{
            font-style: italic;
        }
    </style>
</head>
<body>
    <h1>Silicon Chip Technologies</h1>
    <div>
        <p> A private limited company, which was founded in December 1989.
        The vision of this company is to provide any corporate client
        a single entity which addresses all their Software Development,
        Technical and User Documentation, Training and Manpower
        Recruitment needs.</p>
    </div>
</body>
</html>
```

Output:

Silicon Chip Technologies

A private limited company, which was founded in December 1989. The vision of this company is to provide any corporate client a single entity which addresses all their Software Development, Technical and User Documentation, Training and Manpower Recruitment needs.

----------Task 3.5----------

Bootstrap 5.2.3 Examples: Go through the following examples in bootstrap-5.2.3examples.zip: sign-in, cover, checkout, and blog. Modify these examples for a real-world application. Submit the modified web pages and respective HTML and CSS files with description.
